Robin Reed Announced as TBH's Nominee for OHA Award

Congratulations to Robin, who will represent TBH at the OHA Recognition Dinner in Columbus on June 5.

Robin Reed, a registered nurse in TBH's Post Anesthesia Care Unit, was named nominee for the 2018 Ohio Hospital Association's (OHA) Albert E. Dyckes Health Care Worker of the Year Award.

The Albert E. Dyckes Health Care Worker of the Year Award has been given annually since 1996 to one Ohio caregiver who personifies a leader, gives back to the community, and routinely goes beyond the call of duty and has overcome odds to succeed.

Robin began her healthcare career as a nurse's aide for a home health program while pursuing her nursing degree. Robin then began working at The Bellevue Hospital and for the past 21 years has worked in the Medical/Surgical, Intensive Care and Surgery Departments.

The hospital staff nominated Reed for the award with the following information:

"Robin has a true passion for what she does. Her gift is making people feel special, loved and cared for. Throughout

her career, Robin anticipates and exceeds the expectations of her patients and their families. Robin is always willing to answer questions patients or loved ones may have and explains things in a way that makes them feel positive about their healing process."

"Robin's compassion is shown in the way she offers reassuring words to a patient worried about recovery. It's shown in the way she gives an extra blanket to a patient for warmth and comfort. It's shown in the way she offers a friendly hand to hold when someone's afraid about a surgical procedure. Always with a smile on her face, Robin's sense of humor makes patients feel at ease during a time when they are often uncomfortable. She uses laughter to help cheer up her patients, families and co-workers throughout the day. The saying "Laughter is the best medicine" rings true for her patients. She's the ultimate advocate for our patients, our hospital and our community – because she cares for all of us as members of her family."
